

HW

Gemmological
Laboratory

March 18, 1999

To whom it may concern:

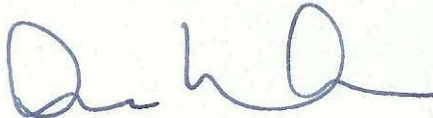

David Jockheck has informed me that he is moving to the United States of America. I have known Mr Jockheck for several years, and have seen many examples of his work through those years. David's work is exemplary, it is of the best quality and highest standards available.

Mr Jockheck is very straight, and is honest in all of his dealings. He has the knowledge and confidence to be able to evaluate work needs, and can always explain the most appropriate approach to a given job.

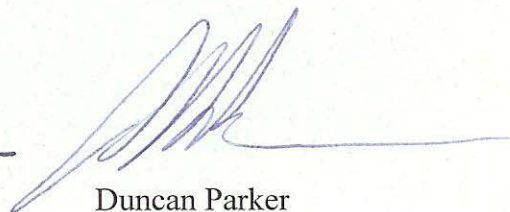

Mr Jockheck is a platinum and goldsmith and designer, and his knowledge and skills would be a valuable addition to any jewellery environment.

Should you require further information please contact the undersigned at your convenience.

Sincerely

Anne Neumann
